iTraker BASE Device | iTraker Stand | Lanyard | USB-C Charging Cable | 24 Month Warranty | Training & Support

Termatrac™

iTraker

All Purpose Detector

iTraker Base Model:

Radar/Motion Sensor:

- Uses non-intrusive, low-energy microwaves to detect activity.
- High-frequency radar emissions accurately locate and monitor termite and insect movements without disturbance.

Termatrac Customer Portal

- Efficient data capture, storage, and access via the iTraker app's cloud-based system, facilitating easy review and sharing.

Temperature Sensor:

- Numerical bar graph for quick interpretation of surface temperature changes.

Dual Moisture Sensor:

- **Direct Mode:** Detects subtle moisture fluctuations up to 40mm deep with Omni-directional technology, maintaining accuracy even in extreme humidity.
- **Relative Mode:** Detects moisture changes beneath the wall's surface in relation to a reference point, useful for identifying moisture-prone areas conducive to termite activity.

iTraker Training and Certification:

Training program to ensure users have the necessary skills and knowledge to become Termatrac Certified Technicians and fully utilise the device's capabilities.

The iTraker BASE stands as a cutting-edge, non-invasive detection device, fully furnished to pinpoint the movement of insects and other pest with industry standards and requirements.
