iTraker PRO Model Inclusion:

iTraker PRO Device | iTraker Stand | Lanyard | USB-C Charging Cable | USB Thermal Camera Cable | 24 Month Warranty | Training & Support

>• iTraker Pro™

The Ultimate Companion Tool

iTraker PRO Model:

Radar/Motion Sensor:

- Uses non-intrusive, low-energy microwaves to detect activity.
- High-frequency radar emissions accurately locate and monitor termite and insect movements without disturbance.

Termatrac Customer Portal

- Efficient data capture, storage, and access via the iTraker app's cloud-based system, facilitating easy review and sharing.

Temperature Sensor:

- Numerical bar graph for quick interpretation of surface temperature changes.

Thermal Imaging Camera:

- Accurately measures your target using center spot or max/min area box
- Resolution: 256*192 • Pixel Pitch: 12um
- FOV Camera Lenses Angle: 42° * 32.1° • IFOV: 2.4 Milliradians
- Frame Refresh Rate: 25HZ • Accuracy: +3°C
- Measurement Range: -20°C - 120°C

Dual Moisture Sensor:

- **Direct Mode:**
Detects subtle moisture fluctuations up to 40mm deep with Omni-directional technology, maintaining accuracy even in extreme humidity.
- **Relative Mode:**
Detects moisture changes beneath the wall's surface in relation to a reference point, useful for identifying moisture-prone areas conducive to termite activity.

iTraker Training and Certification:

Training program to ensure users have the necessary skills and knowledge to become Termatrac Certified Technicians and fully utilise the device's capabilities.

The iTraker Pro is transforming the way pest control professionals conduct inspections by combining advanced technology with ease of use.
